

# DHRUV SHARMA

[8527612661](tel:8527612661) | [dhruvsharma2995@gmail.com](mailto:dhruvsharma2995@gmail.com) | [Linkedin](#)

**Computer Science student** Passionate about building real-world projects, solving problems, and continuously learning new technologies.

## EDUCATION

**ITS Engineering College, Greater Noida** | B.TECH in Computer Science Engineering 2022 – 2026  
CGPA: 6.17

**AISSCE(CBSE) | Modern Public School** [2021-2022]

Scored 85.2% in AISSCE Board Exam for the stream PCMB

**AISSE(CBSE) | Kala Niketan Sr. Sec. Bal Vidyalaya** [2019-2020]

Scored 89.4% in AISSE Board Exam

## SKILLS

- **Technical Skills:** Java, C, JavaScript, Python, SQL, HTML, CSS, React JS, MongoDB
- **Soft Skills:** Public speaking, Multitasking, Problem-solving, Strategic thinking , Content writing, **Leadership**.

## EXPERIENCE

**Python developer | Codsoft:**

**20 April 2025 – 20 May 2025**

- **Accomplished** Python knowledge by build 5+ varieties of projects.
- **Developed and executed** projects based on basic python concepts.

**UI/UX Design | Freelancing**

**June 2024 – Present**

- **Created web applications** leveraging various web development tools and dependencies.
- **Designed and delivered** compelling Instagram and LinkedIn content to boost brand visibility.

## PROJECTS

**[LearnBytes](#) | [Html](#) | [Css](#) | [Jscript](#) | [Node.js](#) | [React](#) | [MongoDB](#)**

- LearnBytes is a full-stack EdTech platform built with React.js, Node.js, Express.js, and MongoDB.
- Integrated with JWT authentication, Cloudinary CDN, and real-time progress tracking for security and scalability.
- Features include personalized course recommendations, gamification, and community-driven tools.

**[Student Performance Predictor](#) | [Python](#) | [Pandas](#) | [Sklearn](#) | [Pandas](#) | [Numpy](#)**

- Developed predictive models to forecast student performance and identify key factors.
- Built and trained ML models for accurate performance forecasting and analysis.
- Predicted student grades using academic data with Python, Pandas, and Scikit-learn.

**[CODSOFT](#) | [Python](#)**

- Designed user-friendly interfaces for Python applications.
- Developed interactive UI/UX projects using Python's Tkinter and PyQt libraries.
- Created multiple UI/UX projects based on basic python programming concepts.

**[Portfolio Website](#) | [React.js](#)**

- Built a personal portfolio website with HTML, CSS, and JavaScript (or React.js).
- Designed a responsive layout with smooth navigation and interactive sections.
- Deployed on GitHub Pages (or Vercel/Netlify) to showcase front-end skills.

## CERTIFICATION

**Cloud Foundation, Amazon web service (AWS):**

- Completed Certification course on Amazon web service (AWS) on Cloud Architecture.
- Facilitated effective communication and ensured alignment across all project stakeholders.

**Python programming internship Certificate, Codsoft:**

- Created multiple project based on basic python programming.
- Learned and worked with different python concepts like CSV file management, Python UI/UX, Use of libraries like Tkinter and etc.

**Data Structures and Algorithms using Java Certificate, Infosys:**

- Successfully completed a comprehensive course on Data Structures and Algorithms using Java, covering key concepts such as arrays, linked lists, stacks, queues, trees, and graphs.
- Gained hands-on experience in solving algorithmic problems and writing optimized Java code.
- Strengthened core problem-solving skills essential for technical interviews and software development.
